We are going to have several presentations on “current trends” in tile specification and installation. Each will be brief discussions on what is “hot” commercially, residentially, builder programs and also demonstrating some new installation items. We will actually be in the brand new, air-conditioned warehouse next door to their current facility and we will be taking tours of the new showroom. They will not even be totally moved into their new offices at this point. So we are getting “sneak peek”. There of course will be plenty of beverages and Chipotle on hand while enjoying the wonderful networking that goes hand in hand with these evening events. So please join us for a beautiful summer evening with our friends at Hamilton Parker.
