Myths About Hardwood Floors

Presented by Jeff Rose & Bill Walz

Cost:

\$10.00 per person
\$20.00 entire crew

Who doesn't love a beautifully installed hardwood floor? People can feel its physical warmth in addition to the aesthetic value of the warm atmosphere it creates. Hardwood just feels like 'home.'

This month Jeff Rose and Bill Walz of Mansion Hill Custom Flooring will host your meeting in their gorgeous showroom, and help dispel the myths that surround the installation of hardwood flooring. Their creativity and business savvy have garnered national media coverage for their still young company. Many homeowners have pre-conceived notions that taking care of hardwood is difficult or that it is not suitable for certain areas of the home. Some even fear the impact it has on the environment. Jeff and Bill will speak to those fears and help you learn to sell hardwoods to your customers, leaving your project and their home with considerable lasting value.
